

# CURRICULUM VITAE

DIEGO ALEJANDRO MESA  
VASQUEZ

CENTRO DE TECNOLOGIAS  
AGROINDUSTRIALES  
MEDELLÍN  
2023

## PROFILE

**<https://www.linkedin.com/in/diego-alejandro-mesa-v%C3%A0squez-03805b223/>**

I am a professional with a solid 20-year track record in the textile industry, where I have acquired valuable skills in management, production and quality. My experience in the textile sector has given me a deep understanding of industrial processes and market needs. However, my true passion lies in the world of software development.

For the last 4 years, I have closely followed the evolution of technology and acquired skills through self-taught. I have also taken some programming and software development courses. My self-directed approach and problem-solving ability have allowed me to learn the basics of multiple programming languages, the principles of some frameworks and agile development methodologies.

I am looking for an opportunity to transition into the field of software development, where I can apply my industry experience to create innovative technology solutions. My previous experience has taught me the importance of attention to detail, organization and on-time delivery, qualities that I consider essential in software development.
